RBI committee to study sickness in small scale sector

2381. SHRI HARVENDRA SINGH HANSPAL: Will the PRIME MINISTER be pleased to state:

(a) whether the RBI has constituted a high power committee to study the problems of working capital and sickness in the small scale sector;

(b) if so, the details thereof;

(c) by when the committee is likely to submit its report; and

(d) to what extent the small scale industries would be benefited as a result thereof?

THE MINISTER OF STATE IN THE MINISTRY OF INDUSTRY (SHRI P. J. KURIEN): (a) and (b) A Committee to review the arrangements for meeting the working capital requirements of small scale industries, and for the rehabilitation of sick small scale industries and to examine any other issue relating to small scale industries has been appointed vide RBI memorandum dated 9.12.91.

(c) The Committee is expected to submit the report by 30th June, 1992.

(d) This would depend on the nature of recommendations of the committee and implementation of the same.

Industrial Production

2382. SHRI SYED SIBTEY RAZI Will the PRIME MINISTER be pleased to state.

(a) whether National Economic Survey has recently given its presumption that Industrial Production is likely to fall during 1991-92;

(b) if so, the details thereof;

(c) whether Government propose to take some ecective steps to ensure such position may not be repeated during 1992-93; and

(d) if so, the details thereof and if not, the reasons therefor?

THE MINISTER OF STATE IN THE MINISTRY OF INDUSTRY (SHRI P. J. KURIEN): (a) and (b) According to the Economic Survey, 1991-92, the growth of ndustrial production during 1991-92, could be expected to be in the range of 3 to 4 per cent.

(c) and (d) Government has brought out a statement on Industrial Policy which was tabled in the Lok Sabha on 24th July, 1991. The New Industrial Policy is aimed at improving industrial production by relaxing controls and removing bureaucratic delays. Many policy measures announced in the Union Budget for 1992-93 are resigned to promote industrial growth. Thus, measures like partial convertibility of the rupee, reduction of duties on capital goods, and elimination of import licensing except for a small negative list, etc. would facilitate easier availability of raw materials, components etc. while measures like reduction in statutory liquidity ratio and reducton in interest rate would facilitate easier availability of funds at lower cost for industrial development.
